- 8, Guarantee: with 2 years warranty

Descriptions:

Airtight inflatable water toys are made by high quality materials and advanced welding machine to ensure high quality, just one time inflation will last a long time keep air pressure enough for playing even under extremely low or high temperature. These inflatables are usually used as toy games for water parks, open seas, lakes, pools, etc. Any sizes, shapes/designs, colors we can work them out according to customer requirements. We add reinforcement strips for all our slides, so the items have good airtightness and more durable. For parts like anchor rings and handles, we use the big high frequency welding machine to weld on the products instead of glue on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off. We install high quality air relief valve on our slides, so the items can release air to a safety air pressure level automatically when it's going to become hot at noon.

Applications:

Airtight inflatable water toys can be widely used for summer water park, River, pool and water game parks, sun cold paradise amusement water park, for outdoor use, outdoor entertainment, backyard fun, festivals and carnivals, schools and daycares, churches and youth groups, corporate picnics and functions, grand openings and promotions, family use rental or resell business. and so on...

Specifications:

Model number:	king-wt163
size:	3.5m high

Why choose us:

- 1). Guangzhou King Inflatables company was established in 2002 as one of the leading inflatable manufacturers in China for producing various inflatable products and exporting to more than 70 countries all over the world. Our company has many customers with good cooperation in the world market and earned a good reputation by our best quality and professional services.
- 2). All our materials of this product are purchased from Plato factory, Wubit special material -- Wubit 0.9mm PVC Tarpaulin, more expensive than general 0.9mm PVC Tarpaulin.
- 3). Heat sealing machine
We use advanced Heat Sealing Machines to ensure our inflatable products can handle high air pressure and secure for use.
- 4). Sparring is added on the bottom base
- 5). Metal rings for fixation
Each product will be equipped with thick D rings or O rings to be fixed on the ground and remain steady
- 6). Considerate tight packages
We provide an appropriate size package bag using the PVC material respectively to make sure the goods will be in good condition when it reaches you even after a long shipment.
