#### Advantages:

- 1.All our products are reinforced strips, so the items have good airtightness and more durable.So our products' life spam are more than 4 years.
- 2.We install high quality air relief valve on our water parks, so the items can release air to a safety level automatically when it's getting hot in the

noon. This will ensure products safety.

3. For the anchor rings and handles on our products, we use the big high frequency welding machine to weld instead of glue on by hand. So the parts and the main body are fused together so the quality is very stable and will not peel off.

4. Stable Connection System. King Inflatable created original eyelet connection and anchor ring connection system which make the whole park very stable.

5. We use good quality thick PVC material for inside drawstring which help form the inflatable shape. Thick PVC material will be more durable and can last for using time longer.
