#### Descriptions:

1 Workmanship: It is a seal product manufactured by hot air welding machine. Our hot air welding machine is imported from Japan which has stable temperature, so it won't be over sealed or miss sealed, definitely in top quality without leak. Besides, we will double reinforce all the water items based on the seal seams to make sure it has no loose.

2 Material: It is made of plato 0.8/1.0mm pvc/ptu. All the material we use is from PLATO CHEMICAL which is the best and biggest material supplier in China. The material has been certificated by CE, EN14960, SGS, EN71, ROHS.

3 Relevant water toys: Swimming pools and water balls. Whether in summer or winter, nearly all the clients would not only just buy a water roller, but also buy a pool and some water balls together. If you want to start a small business, start with this.

4 Maintenance: After using, you should keep it dry and clean. Then you can roll and pack it into the bag. It should be kept at dry and ventilated warehouse with normal temperature.

5 Accessories: One free pump and repair kits.

#### Advantages:

1. High precision stitching machine and cultivated stitching workmanship

All of our water rollers are stitched by high precision stitching machine. most importantly, we always apply double stitching anywhere in the inflatables and quadruple stitching in positions sustaining much force and pressure from jumping.

2. Reliable and durable Material

Top quality material are always applied on our inflatables, and all of them are from one of the best material suppliers in China - Plato chemical; All of the materials approved by UL,CE, EN14960,EN71,SGS , So it suitable for European and American market.

3.We test each water rolloer for 3 days before shipment to ensure the ball seamed exactly well.

4.We shall guide you to repair the water roller during all the life span of them. If you have any questions or problem, please feel free to contact with us, We can give you promot reply.

5.Our Gurantee is 1 Year. If the water roller was broken due to quality problem in one year, we will make compensation for it accordingly.

**Attention :**

1.Please ensure that the players weight in it is less than 300kgs.

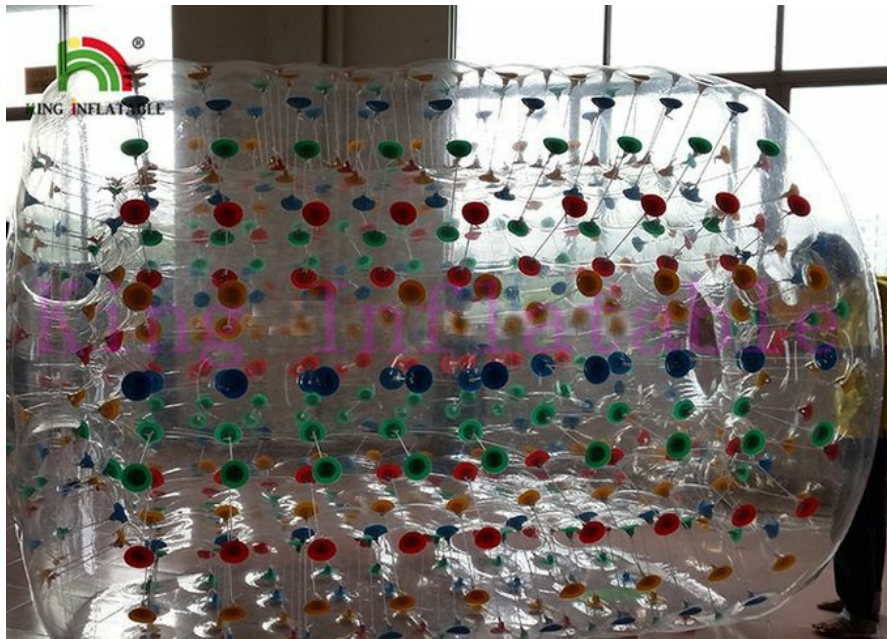

2.Please ensure the player do not take any sharps when playing in the rollers.

3.Please use the water roller in grass ground or water ground.

4.Store the ball at dry place when not used, do not store it together with sharps.

5.Please play the ball in good weather. Suitable temperture is 20 degree to 40 degree.

6. weaker people with heart disease and high blood pressure are prohibited to participate in the water rollers.
