Products Explain:

Zorb Ball is the sport of rolling down inside the giant inflatable ball from a hill or grassplot. It's great for rolling down from local hills, parks, play areas. We also can produce Zorb Balls for playing on Water. Zorb Ball is very popular between children and adults for sport and recreation. The following detail data for reference.

- 1,Color: Shinging with red, blule, white. etc. (can be customised).
- 2,Material: 1.0mm thick PVC/TPU.
- 3,Regular Size:3m Outer dia and 2m inner dia
- 4,Gas chamber: there is a gas chamber to be left between the inside and outside ball in order to assured the flexibility and safety.
- 5, Safety belt: install safety belt on the inner ball to ensure there is no injury when rolling inside the ball. In the zorb ball, you will be strapped in and tumbled around to enjoying the journey without any worry . You are actually quite safe inside the inner capsule because all the actual rolling/bouncing is absorbed by the larger,air-cushioned outer capsule. As you tumble head over heels, the build up of centrifugal force keeps you pressed hard against the inner plastic wall, so it's easy to feel a sense of weightless as you enjoy the revolving view outside.
- 6,Application locations:playing center,sports gym,ect.
- 7,Attached:repair kits and glue.
- 8,Method of shipping: By air or by express,by sea.
- 9,Trade items:EXW,FOB ect.

Advantages:

- 1, Qualified material, Plato 0.8/1.0mm PVC/PTU with anti-tear, waterproof, lead free, non-toxic, durable etc.
- 2, Good appearance, shining colorful strips connecting the interior and exterior ball forms a eye-catched product.
- 3, Strog and well welding.
- 4, Safty and convenient, air tight make it last for a period of time once inflated.
- 5, it's easy to move and inflate the ball in different occasions.
- 6, Equipped with pump, glue and spare material.
- 7, It's easy to mend with repairing patches once broken.
- 8, Fast reply and sustainable response.
