Workmanship:

- 1) Reinforcement. We make reinforcements at every weak points like welding seams, inside baffles, junctions and corners.
- 2) Durable anchor ring. For anchor ring, we use 316 stainless steel material which last longer than other metal in water.
- 3) Durable parts. All our parts like handles, anchor rings are welded instead of glue, it's not easy to peel off.
- 4) Stable Connection System. Bouncia created originally eyelet connection system and anchor ring connection system which make the whole park very stable.

Applications:

Connect the Inflator with the valve and then turn on to inflate, it is sealed product, once inflated, it will last for a period of time. Place it in water, players can climb inside and Walk On the Water Roller.
At most 5 kids or 3 adults can play at the same time.
Bubble water roller / Walk On Water Roller / Water Walking Ball can be widely used as summer water park, water game parks, paradise amusement water park, for outdoor use, or other purposes.

Maintain & Storage:

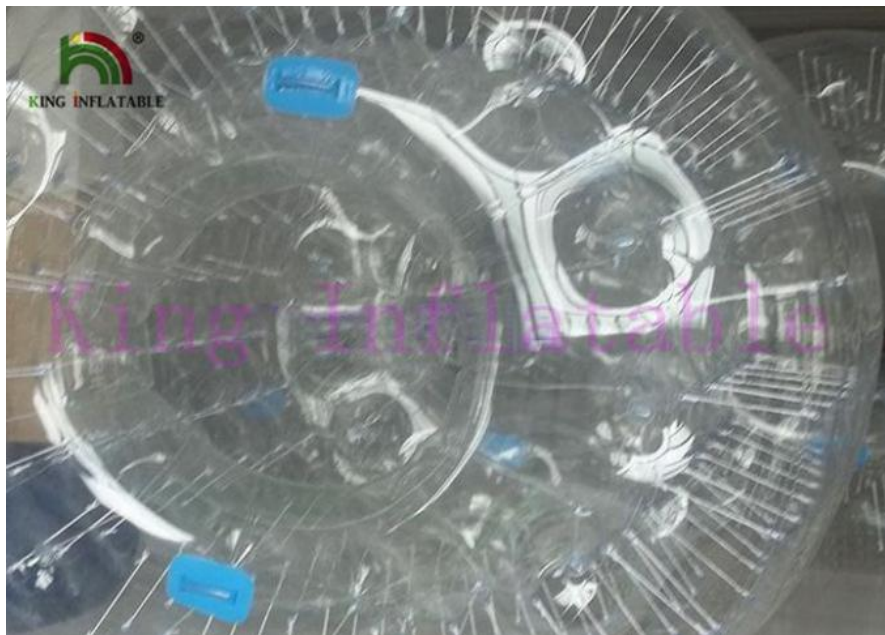

1. Disinfect and clean the water roller regularly.
2. Check it before using. Any damage, please mend it with our repairing kit and glue.
3. After use it, please remove sundries outside and inside the roller.
4. Before packing, make sure the ball is clean and dry. Then store it in cool and dry place with normal temperature.

Why choice us:
