Descriptions:

1,The material is 1.0mm pvc from Plato chemical the best and biggest material supplier in China.The zipper we use is YKK brand. Meantime,it is a heat welded product by hot air welding machine,our machine is imported from Japan which has stable temperature to ensure the ball is very durable without oversealed or miss sealed. Besides,all the products will be done under strict quality control,coz our production manager has been in this field since 1995 and have many experienced workers.So you can get the best quality balls, don't like those inferior balls with cheap material,cheap zipper and no reinforce strips.

2,Widely used for playing center, amusement park, water games, holiday events, swimming pool and seashore scenic spot.

3,We mainly have 5 styles for you to choose: transparent,transparent with colourful strips,single color,mixed-color,soccer Ball .

4,For amusement park on land,people usually put Water Balls in a giant swimming pool for fun.

Usage step:

1. Check the water ball carefully before inflating it .
2. Use the air pump to inflate and make sure the airpressure is suitable.
3. Check it again to make sure the water ball without any punctures.all the users should have guard.
4. Place the water ball in water and then the user can runn,walk ,jump [roll](#),and [flip on the water](#) , What a amazing toy is it!

Our advantages:

- 1, strong and nice welds.
- 2, no electricity required,safe and funny.
- 3, full colors are available.
- 4, can print logos, banners or artworks.
- 5, durable, 2-3years usage life span.
- 6, easy assemble, move, put it away, in different occasions.
- 7, once broken, it's easy to repair, get it fixed and working again.
- 8, lubricant for Ti-zip, glue and spare material.
- 9, trusted quantity and a competitive price.
- 10, fast delivery and the best customer service.

Attention :

1. Please ensure that the players weight in it is less than 300kgs.
 2. Please ensure the player do not take any sharps when playing in the rollers.
 3. Please use the water roller in grass ground or water ground.
