Product Description

Inflatable Football Field Outdoor Interactive Inflatable Soccer Field For Kids Adults

The inflatable soccer field can be used in rental business, festival advertisement, Christmas party, amusement park, theme party, promotional activity, fair sign, advertising, sales promotions, sporting events, trade shows, conventions, match, entertainment marketing, community events, dance, retail display and etc.

1. A manufacturer from Guangdong Province that produces inflatable football fields for outdoor interactive games.
2. Create a safe and fun five a side court for tournaments and matches which can be set up in less than an hour.
3. The ball will rebound off the sides realistically and players will not crash into barriers and hurt themselves like a traditional five a side court.
4. This game can be set up on any surface and the surround of the inflatable is great for spectators getting up close without encroaching on the playing area.
5. We add Zips at either side of the goals to allow the goals to be removed to create an inflatable surround for any event sporting or otherwise. The zips also allow the game to be transported in four sections making it much easier to store and to move from one location to another.
6. Additionally, we can add an arch at the half way point creating ease of access and exit which enables an entrance without having to hurdle the sides. This is perfect for players with limited movement, walking footballers or those in wheelchairs.
7. The game can be built to any size or colour combination of your choice and the side panels offer plenty of opportunity for branding options.

If you need bulk wholesale of this product, please contact us for a detailed quotation.

Specifications:

Product Name	Inflatable Soccer Field
Material	210D nylon fabric
Size	10m Long x 8m Wide
