 Iceberg with slide: 4mL x 3mW x 2.7mH  
 Saturn: 3.5m dia x 2.5m  
 Seesaw Single tube: 4.2mL x 1.2mW  
 Seesaw Double tube: 4.2mL x 2.05mW  
 Bouys: 5mL x 0.33m Diameter

#### Application:

1. Water proof and fire resistant, can be used in the rainy and sunny days.
2. Combine inflatable floating toys together in bouys water area make a big water park. such as Inflatable trampoline, water slide, iceberg, seesaw, Saturns, and water roller, water waking ball.
3. Take care of kids well if they are playing in the water park.
4. Any sizes, shapes/designs, colors according to customer requirements
5. Customized Huge Inflatable Water Park Set 25m x 25m Inflatable Aquatic Floating Park can be widely used as summer water park, water game parks, sun cold paradise amusement water park.

#### Advantage of our inflatable water parks:

- 1) We make reinforcements everywhere for the big water park, the connection between items of the park are durable eyelets, the structure can make the giant water park connect very stable.
- 2) We install high quality air relief valve from UK on all the items of this water park, so the items can release air to a safety level automatically when the air pressure getting higher.
- 3) We use thick and big stainless steel anchor ring with durable anchor pads at the bottom of the inflatables.
- 4) Material: We use best 0.9mm or 0.65mm PVC tarpaulin for water games.  
the best material is very important for the games. All inflatable games of Topfun are made by high durability fire-retardant PVC Tarpaulin, which has 3 layers, two coated side with a strong net inside. The flame retardant meet BS7837. Our material has improved by the SGS.
- 5) Heat sealing machine: For the sealed water game, it is very important for the welding well. We have advanced welding machine and the best workers in inflatable industry.
- 6) Printing: Digital print, silk print, or hand painting. The high level painting makes Topfun product will not be sticky and color fade, but sustain a long time. And it print quickly and in good quality. Further more, we make a liquid protecting film on the surface of digital printing,.
- 7) Blower/Pump: CE air pump: 220V; UL air pump: 110V
- 8) Strong package bags: We spread air out to help deflation before roll the game, then put a band belt outside to tie it. We will use tarpaulin bag which is same material as the games to package the units. So the packages will not be frazzled during delivery process. For big units, we will make extra handle band outside of the packages.
- 9) Accessories: Repair kit(material and glue), air pump, carry bag

#### Order procedures:

Send the model number or picture ---Quote price to you ---Order confirmed---Deposit payment---Design and logo and safety warning confirm---Product manufacture---Take photos ---Photos confirmation---Balance payment effect---Shipment

### **About King Inflatable:**

Guangzhou King Inflatables Co., Ltd. located in Baiyun district in Guangzhou, China. where just 10 minutes to drive from Guangzhou Baiyun International Airport.

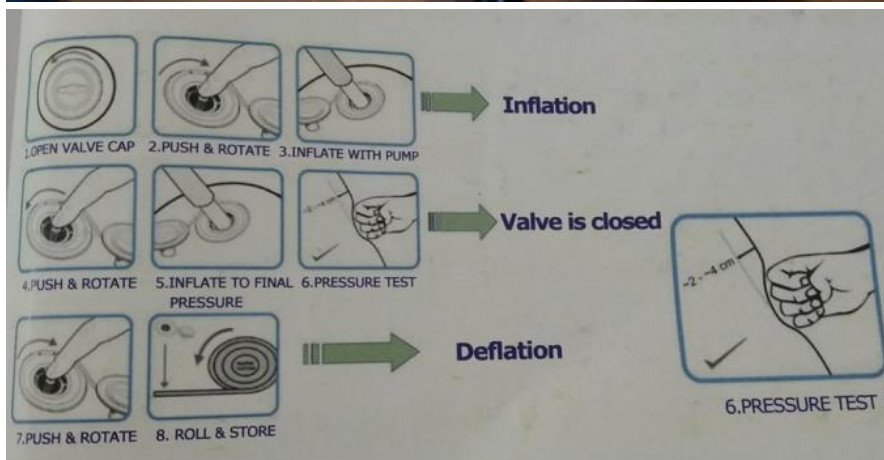

Our products widely used in entertainment parks, exhibitions, sports and advertising. some hot sale products like Inflatable water parks, bouncy castle, tents, zorb ball cartoon model, and arches etc. You can find products of King Inflatable in more than 72 countries all over the world.

### **How to put the inflatables together:**

- 1) Take the inflatable out from packing bag one by one according to the single photo and the whole photo of water park , and pave the mat or put it where there are no any sharp things avoiding scratching
- 2) Inflating and deflating the products with air pump :  
If the black tube connect the head of air pump , then air pump will inflate the products ;  
If the black tube connect the tail of air pump , then air pump will deflate the products .
- 3) When inflating the products , please keep in mind, don't inflate full air, fist cave in the inflatable product 2-4cm will be better
- 4) Firstly , connecting D rings with ropes ; Secondly , put the cover flap between the gap with velcro
