Descriptions:

Inflatable buildings can be extremely useful at events.

An inflatable building can be much quicker and easier than assembling a large tent. The inflatable nature of the buildings also makes them several degrees warmer than the outside temperature in cold conditions, or they can cool a hot area. In extremes of climate they can provide much better working environments to increase productivity

We can custom make any inflatable building to suit your requirements.

- 1, Water proof, lightest fabric, can be used in the rainy and sunny days.
- 2, blowers working all the time, to supply a constant air for the dome.
- 3, Many D rings around the bottom and top as anchors with rope to tie a weight, in case of strong wind to blow it away
- 4, fake dome, for display only, no people would get inside
- 5, 8 white frame tubes / posts , and ground tube to form the shape, it's very strong
- 6, Reinforced double stitching everywhere

Applications:

inflatable trade show event tent can be widely used as warehouse, trade show booth, event display etc whether temporarily or permanently, both indoor and outdoor use, rental or resell business.

Specifications:
