The Incredible Lungs Inflatable will be a spectacular attraction at your next medical exhibition, fund raiser, or wellness campaign.

Sadly, anti-smoking campaigns and the Covid19 pandemic have made us more aware of the importance of healthy lungs. But how do you attract people to talk with you about your healthy lung-oriented products or campaigns.

Well, imagine the Incredible Lungs Inflatable as the centre-piece of your next exhibit at a Medical Conference. Or, why not use it to feature a healthy lifestyle, or in anti-smoking campaigns. Additionally, it's great for asthma or lung cancer fund raisers. And, for those tasked with explaining the effects of Covid19 on the lungs, the Incredible Lung Inflatable makes the training or awareness campaign all the more real.

Hospitals and new medical centres will also use this new inflatable. For example, imagine entering a Hospital fund raising event by walking through the inflatable lungs! It WILL attract a crowd.

Also, schools will love it as the inflatable comes with a Teaching Resource Sheet. It's designed to assist teachers to discuss the biology, diseases, and other health issues around lungs. Additionally, one Teaching Resource Sheet is for primary school children, and a more detailed one is for teenagers and adults. As mentioned below, we also have Incredible Brain, Heart and Colon inflatables.

Some schools or organisations may opt to use all four organs. Groups of students or participants can go to each organ station to learn about it.

Alternatively, set up the Lungs inflatable as an attraction at your next fund raising fete or healthy lifestyle or wellness festival. Feature Your Organisation.

As you can see in the pictures, there is plenty of room for your marketing. You can use pop up banners featuring your healthy lung-oriented product. So, if you are a brand looking for a unique brand activation this is the inflatable for you.

In addition, customers who hire the Incredible Lungs Inflatable, also hire other products such as sports inflatables or obstacles courses.

Also check out our other medical inflatables such as the Incredible Brain, Incredible Colon, and Incredible Heart.
