Product Description

King Inflatable Bubble Tent Outdoor Camping Bubble House Hotels

Description Of Inflatable Bubble Tent

1. 3D design before production

All design of our bubble tents, like size, color, structure etc, can be customized as per individual demands.

Our design team will arrange 3D design for our customers' confirmation before production.

2. Top clear pvc

The transparent pvc we use has the clearest standard with high ductility, and that means, on the one hand, the bubble will become

very clear even if it's just unpacked and inflated from a shipping package situation, on the other hand, the wrinkle will disappear in a short time after a long-time shipping package;

3. Precise heat welding

Experienced workers plus high precision machine comes into very high precise heat welding.

4. YKK zipper door

YKK quality zipper is always applying in our bubble tents and other inflatables zippers needed.

5. Anchor

Anchors are always equipped on tunnel even if there bubble is secured through the steel frame on the bottom of the it.

6. Vent

It is necessary for every bubble to have reasonable size vent to let air get out to make the bubble in air-balance sittation.
