Product Description

Merry Christmas Blow Up Balloon Ornaments Yard Decoration Large Outdoor PVC Inflatable Balls

Inflatable Christmas Ornaments

Be the talk of the neighborhood, and have your decorations set up quickly and simply, with inflatable Christmas ornaments. Oversized and ornate, and perfectly resemblant of the ornaments from your Christmas tree, these inflatable ornaments are a lot like beach balls, whereas they are lightweight but durable, and can be anchored to the lawn, or hanged from a tree for effect.

Christmas Ball

A large inflatable Christmas ball that will illuminate your outdoors. This piece is fabricated using polyvinyl chloride and is filled with water at the bottom for stability. It is also integrated with rechargeable LED lights.

Designer Advice:

At 24 inches in height, this ornament is large enough to brighten up your home, especially if you get multiple pieces. Create a unique outdoor ensemble by opting for multiple colors for a varied look. We recommend placing some on the ground along with other Christmas ornaments. Since it's lightweight, you can also opt to hang the other pieces on your tree.

Are inflatable Christmas ornaments waterproof?

Inflatable Christmas ornaments designed for outdoor display are generally waterproof and durable. Usually designed with synthetic materials, like nylon, these inflatables can sit in both rain and snow.

Regardless of their actual shape and size, their weather-resistant material sheds water easily, keeping moisture from seeping inside. For those with internal fans, this is especially important.

You will want to take certain precautions, however, to ensure your inflatable Christmas ornaments last a long time and still look their best. Avoid placing them near downspouts or cascading gutters and away from areas that flood or where water tends to pool.

If a severe storm is forecasted, bring your inflatables indoors or place them in a garage or other covered structure until it is safe to return them to their designated spots. If they're accidentally left outdoors during inclement weather and the fan quits, move them under shelter and allow them to dry and drain.

How do I patch a hole in my inflatable Christmas ornaments?

To patch a hole in your inflatable Christmas ornaments and decorations, you need to find the leak, fix it with appropriate materials, and stage your inflatable in a suitable and safe location.

Finding a leak on an inflatable Christmas ornament may not be as straightforward as it sounds. Some of these inflatable decorations are pretty large, and finding a small, hissing leak in the seams or body is challenging. If you're having trouble, spray the entire inflatable with a water-and-dish-soap mixture, and begin filling the ornament with air. There will be bubbles where the leak is occurring.

Once you've located the leak, follow the directions on your vinyl repair kit, or sew up the leak if it's located on nylon instead of vinyl. Always use a slightly larger patch than the hole you're repairing, with a 1" buffer all around.

Product Description

Product Name	Christmas ball
Material	PVC
Size	Diameter: 60cm(24")
Color	As picture
Design	Customized
Packing	One piece in one opp bag
MOQ	200pcs
Delivery time	7-30 days according to order quantity
Shipping	By sea, air or express (DHL, FedEx, TNT, EMS)
Payment	T/T, Western Union, Paypal
Usage	Outdoor xmas decoration christmas ornament
