Inflatable Island Float Adult Water Toy 6-Person Inflatable Unicorn Pool Float

Inflatable Unicorn Pool Float

Add a magical touch to your vacation with this fantasy float. Live an unforgettable experience and travel the waters on your own giant Unicorn pool float.

Giant Inflatable Unicorn Float

For this week's giveaway we've got the ultimate pool float for summertime – the giant inflatable unicorn! This behemoth of a float sports a vibrant rainbow and white color scheme and features a large built-in platform big enough for you and five other friends to party on!

If you have a lake property or river property and you don't have a giant inflatable toy to go on it, you're doing something wrong. If you don't want to invest as heavily as this giant floating rock climbing wall, or giant yacht slide might require, this giant unicorn lake float might do the trick. It'll not only make relaxing on the water that much more magical, but it'll also take your party to that next level where the beer flows like wine!

This unicorn lake float seats up to 6 adults. The floating unicorn's giant size will most likely require a lake, river, or ocean, but if you just have to use in your pool, don't expect much of any other space to be open for swimming.

The giant inflatable unicorn float has an amazing 1,320 lb capacity, along with six cup holders, and a built-in platform to walk about and hold a few coolers of the nectar of the Gods. Sure there should probably be around 20 cup holders, allowing everyone to have 2 or 3 drinks to themselves, but it's only a floating unicorn, not a floating leprechaun. All your wildest dreams can't come true, just a few them...

The giant animal lake floats come in three different styles, a giant unicorn, a giant flamingo, and a giant peacock. Both the giant flamingo and peacock both have built-in coolers to store the goods, unicorn as same.

The giant unicorn lake float has a giant head and horn that looks to protrude 5-10 feet above the platform, two giant rainbow wings that protrude from the sides, along with a giant rainbow tail that comes out the back of the unicorn. The inside features rainbow colored seating, and plenty of leg space for everyone while they relax on the water.

I bet if you fell asleep on this beast and let it gently float on the water, you would wake up in a sparkly and glittery alternate universe where this float leaves a rainbow-colored wake behind it. One can only dream..

The party doesn't start until the giant unicorn float arrives. And then it goes all night. And since it holds up to six people, there's magic for everyone. If you love mythical creatures you are going to love this inflatable. It's like a giant mythical pleasure boat for you and five friends. Float to an unknown enchanted land somewhere far far away.
