Snowboard Landing Airbag Safety Air Bag With Blower For Athletes Of All Levels

SNOWBOARD / SKI

Snowboard Airbag Jump Landing
Sloped Airbag Landing
Inflatable Airbag for Snow Sport
Snowboard Airbag
Airbag for Snow Sport

Invented for professional snowboarding/skiing training, the Allround Airbag quickly made its way to ski resorts all across the globe. It is the perfect year-round training tool, whether you are a regular ski resort visitor trying out your first jumps or you're trying to dial in those double corks. Allround airbags have replaced foam pits and water ramps, due to their portability and ease of use, as well as setting a new standard for safety and security for extreme sports enthusiasts. Try it on the bag and then take it to the snow right after.

King Inflatable proudly presents its large size landing Airbag for Snow Sport officially. With this sloped Landing Airbag you can practice your freestyle tricks safer and faster than anyone else. With its unique air pocket system with multiple air vents, Snowboard Airbag allows ski & snowboard riders to land and ride away safely if the trick is landed. This ski airbag for snowboarding and freestyle skiing will help the athletes to archives a new level in their respective sport.

A whopping Airbag for Ski and Snowboard Riders, built by King Inflatable, will help freestyle skiers and snowboarders to train any trick they want with a huge reduction to the risk of injury.

The Landing Airbag on Snow is in the shape of a mountain slope, skiers and snowboarders can effectively ride out of their trick instead of landing to their back, as if they were landing onto the snow. With unique air-chamber system both with multiple pressure vents, Ski Jump Bag is soft and smooth when you land on it, the heavy fall is cushioned.

When we installed landing Airbag in our snowpark, it instantly set us apart from the surrounding resorts. Word was spread fast by social media and the number of day pass visitors who stayed in surrounding resorts increased significantly in a matter of days.
