## Product Description

### Inflatable Aibag Landing Professional Stunt Air Bag Inflatables

#### Inflatable airbags

Landing airbags for mountain bikes, BMX and scooters

The FMX landing airbag has 1 impact absorbing air chamber for a true and safe landing.

The bike landing device has a single chamber impact absorption system with its own internal blower system. It is equipped with several air valves that allow you to precisely adjust the stiffness. A soft chamber can be set up when trying tricks for the first time. Ready for the real deal? Set the chamber harder and get ready to ride out those tricks and progress!

#### Excellent impact absorption with no bounce effect

Set up anywhere, no need to shape the dirt

Ready to ride in minutes

The highly advanced topsheet material combines strength, durability, flexibility and resilience. It has neither grip nor abrasion, allowing you to land and ride.

#### Highly advanced fabric

We source materials globally and only the most advanced flame retardant materials are used for bike landings, providing you with unmatched durability, strength, reliability and great looks.

#### Innovative internal blower system

The innovative blower system is enclosed within an airbag, providing protection from the elements, reducing noise, and improving safety by eliminating the risk of kinking blower hoses or unnecessary contact with the blower itself.

#### Our Services:

1. Professional free design custom-made to your needs;
2. Professional advise and instant response;
