Product Description

Giant Inflatable Obstacle Course Bouncer Fun Time For Adults Rental

Game Information

Get ready to take on the Inflatable Obstacle Course/Assault Course. With different Obstacles to complete you can run, jump, squeeze, climb and slide your way to the finish! If you need an Obstacle Course for your event our high energy Inflatable Assault Course is perfect. It's suitable for children and adults making it great for all types of events.

The Inflatable Obstacle Course is perfect for Team building, Family Fun Days, Corporate Events, Experiential Events, Brand Activation, School Activity Days and many more.

Will you be the next Ninja? Two opponents compete by racing through the 70 ft Inflatable Obstacle Course full of obstacle walls, squeeze plays, tunnel crawls and more. Concluding the obstacles is a rock climb wall to conquer to get up to the slide at the end of the obstacle course. This works well at any college, high school or company event with non stop action.

Advantages

- (1) the best PVC waterproof, tensile strength, fire-retardant, anti-rust
- (2) More than 5-year factory; 11-year working on inflatable
- (3) Price is negotiated, much more reasonable and pretty competitive

1. Completely assurance

Our structures work with good sewing technic, they are 100% strong. They require the constant use of an electric compressor, and therefore need to be connected to an electric socket or to a generator.

2. Easy of Use

Ten minutes are all that is required to inflate our modules with a CE/UL pump. This time is greatly reduced by the use of 780W electric pump. It is of course possible to inflate them in the traditional way, by using a mains voltage pump. Our products eliminate problems with interlocking tents together, creating multiple rooms and any problems with assembly instructions.

3. Safety of use increased

Our structures do not have rigid element. This ensures the best security for present material assets and people.

Warm Warning

1. Please keep it far away from sharps and high temperature for it's normal lifespan.
2. Please follow the rules of usage and avoid injuries from sharps and high temperature.
