Product Description

Inflatable Event Tent 6m*6m*4m PVC Outdoor Event Party Cube Inflatable Blow Up Tent

Inflatable Cube Tent:

This inflatable tent is used for product launch, dinner party, wedding, event party, exhibition, etc.

Redefines temporary public spaces through innovative, safe and aesthetic solutions. Its unique modular system allows the creation of a large number of shapes, providing answers to the needs of various events and festivals.

The Cube Series; simpler, stronger and quieter, this solution offers unlimited combinations to create spaces. It is truly a new way to conceive temporary public spaces, bringing originality and customization, which creates a unique character for high-end events."

There are two options for assembly: each element can be immediately unfolded on the ground and assembled by connecting the module's joints. Ventilation blocks can then be connected to air inlets located around the modules. It is also possible to inflate each module individually before assembling them together. In both cases, the structure can be manually positioned after inflation.

The structure is made of waterproof textile material. The structure uses high-strength polyester fibers with good fire resistance (Class C). The interior of the structure can be heated or air-conditioned as required.
