Product Description

Kids Bounce House Combo Bouncer Jumper Spiderman Inflatable Castle With Slide

Spiderman Jumping Castle

Size: 7m L x 5.8m W x 4m H

With great power bring great responsibility and that's why we are excited to introduce Spiderman to your next event with our Spiderman Jumping Castle! Peter Parker, a.k.a. Spider-Man, has just completed his first mission with the Avengers, and he's eager for further adventures... Next stop – Your party!

Our Spiderman C5 is a bouncy castle rental for children up to the age of 13 years old. Also, the inflatable has a jumping area, climbing ladder, slide, pop-ups and a basketball hoop.

Our Product

Features:

This commercial popular inflatable jumping castle has so many fun accessories inside! There are inflatable designs inside, to simulate all of your children's favorite creatures! Many of the activities contain slides, or port holes, as well as pop ups and hurdles for the kids to slide down or crawl over and through! All of the inflatable activities sit upon a jumpy castle, bouncing surface, so your child is protected and safe everywhere they go inside this unit. Ideal for children and toddler ages 2 yrs to 8 years old.

Description:

wholesale commercial popular inflatable jumping castle was custom designed by King Inflatable. This Unicorn bounce house water slide will be the delight of every young girl and boy. The bounce area is extra large and has two huge slides. The water slides on this bounce house rental are much taller and longer than any other. Your guests will climb up the internal ladder and slide down the long run into the half-pipe splash area. Nothing more amazing than this unicorn bounce house water slide.

Use this item wet or dry, indoors or out; you and your guests will appreciate the quality and workmanship of this unit which was custom designed by us.

Safety & Durability

1. Inflatable product can be customized (designs and color matches) according to different places. Its maximum tolerance of low temperature can reach -40°C.
2. Good stitching to minimize air leakage and increase tension between sewing parts.
3. Safe enough to keep you stable when sliding
4. Knitted by highly intensified nylon thread

1. High Quality Plato PVC Material

3 layers, Retardant, Non-toxic Environmental protection.

Best material is very important to the inflatable games. Our all inflatables are made by high durability fire retardant Tarpaulin, which has 3 layers, double coated side with a strong net inside.

2. Advanced sewing technology

Our sewing tech is double stitching with fourfold stitching at bottom stress point. For most of inflatable games, the pillar, entrance, step corners are very easy broken, most of manufacturers do not have any special reinforce, but we make sure all these details with extra reinforced bar to guarantee without any problems during playing, that will extend the inflatables lifetime longer.

3. Reinforced Strips at Joint

King Inflatables will make reinforce strips at the bottom joint and each corner. So when the kids bounce on the games, you no need to worry about the safety at all. As the bottom can bear the kids no matter how they play on the games. A lot of cheap products do not take this technology, that will make the product lifetime less than 1 year.

Tips and Safety:

Be sure the area that you will be setting up your inflatable is free of all debris, including any rocks or sharp objects.

Ensure the area selected is free of any hazards such as power lines, trees, walls or other obstructions.

Do not inflate if it is raining.

Make sure that there are no shoes, no sharp objects, no glasses, no beads, no pets, no silly string, no gum, no food, no drinks, no baseball caps when the children enter the bouncer.

The inflatable castles jumping commercial bouncer should not be operated if the wind is equal to or over 25km/h or if the temperature is less than 5 degrees Celsius.

No flips, piling on, wrestling, bouncing against side walls, grabbing the side walls.

Keep the children away from the blower fans at all times.
