When the order is confirmed, you pay the balance, then we arrange the shipment.

Install

1. Place the equipment on the flat ground, it is best to put a pad of cloth (such as felt, plastic ribbon cloth) under the equipment, and then expand it.
2. Find the air inlet of the equipment, then connect with the fan outlet, and fasten the fan port, and then fasten the spare air inlet with rope.
3. Turn on the blower and the equipment will be bulging in 5 / 10 minutes.

Advanges:

1). High Quality Material:

Commercial grade 0.55mm(1000D, 18 OZ) PVC tarpaulin has 3 layers, two PVC coated sides with a strong net fabric inside, which is fire retardant, water-proof, Anti-UV, and anti-ruptured.

2). Best Sewing Machines:

Using the best sewing machines ordered to handle nylon thread we double stitch the entire unit with the best 18 ounce heavy duty Vinyl.

3). Double Stitching everywhere:

We double stitching everywhere, with fourfold stitching at bottom stress point. Double stitching inside and double stitching outside to make sure the inflatables are strong enough.

4). Reinforced Stripes at Joint

Our technicians will make reinforced stripes at the bottom joint and each corner. So when the kids bounce on the games, you do not need to worry about the safety at all. As the bottom can bear the kids no matter how they play on the games.

5). Durable Zippers:

We make strong zipper at bottom of each inflatable. Zippers can help you deflate the inflatable more quickly. Above the zipper, there is a zipper cover, which is help to disperse the zipper's stress.

6). Safety Blower Pipe:

For the pipe connected with blower, we specially design one flap on the inside end of the pipe, it will flap up when blower on, and will flap down when power failure suddenly and the blower off. It can prevent the air outflow, and protect the children.

7). D-clasp Rings for Fixation:

Each product will have thick D- clasp rings or circle rings to fix the inflatable onto the ground to remain steady.

8). Tight and Safety Package Bags:

We pack inflatable games in tarpaulin bag and the air blowers packed in durable export carton so that the packages will not be frazzled during delivery process. In order to let you find your goods quickly, we will paste a mark paper with your order number.

9). Accessories: Repair kits, glue water, zipper lubricant (free)

10). Matching CE or UL approved air blowers(plugs can be customized)

11). Vivid artwork:

We mainly have digital printing, silk printing and hand painting. We imported the digital printing machine from Japan, which prints quickly and in good quality. The quality of print ink also meets SGS standard. Moreover, we make a liquid protecting film on the surface of digital printing, which makes our products not to be sticky and no color fade, but to sustain a long time.

12). Customers' requests including size, color, logo and design can all be satisfied.

13). Easy deflation:

We make enough air-out zippers for each inflatable product according to the requirement of EN 14960, which can help you deflate this inflatable product more quickly. We reinforce for all the zipper joints, and there is a zipper cover by Velcro material, which helps to disperse the zipper's stress.

14). 2 years warranty against workmanship and material failure.

15). Quick delivery and fast transportation

Cleaning collection of equipment:

1.Cut off the power supply, turn on the fan interface and exhaust port, the exhaust time is generally $10 \leq 25$ minutes, the remaining gas should be squeezed. If the equipment enters water because of rainy days,Be sure to drain the water and dry it.

2. To do cleaning treatment, you can use washing powder to wipe off its stains, oil stains, and then scrub clean with clean water, sun drying can be.

3.Fold the equipment, block the front with the bottom, and cover it with a tarpaulin.

4. If you don't need it for a long time, fold, tie and wrap the clean equipment. The storage temperature is generally $-50 \leq 40$ degrees Celsius.
