Our Product Introduction

sunny days .

2.It comes with slide up and down , water park With slide and pool ,a CE/UL blower and repair kits .

3. Inflating and deflating :turn on the blower connecting tube and electricity supply for inflating ; turn off the blower for deflating and there are two 1m long zipper opening and covers for fast deflating .

4. Many D rings around the bottom and top as anchors with rope to tie a weigh, in case of strong wind to blow it away

5. Reinforced joints with double stitching ,once broken, it's easy to repair.

6. Different attractive colours and artworks ,amusement park as show in the picture .

**Advantages :**

1. We use the computerized automatic cutting system which can ensure the perfect shape of each products and make production more efficiency to catch your promot shipment time.

2.Use Two-way YKK zippers to assure the users and operators safety.

3.Use Commercial grade anchor,100% stainless steel D ring on products to make sure products fix on ground more stable.

4.We use 12-strands thread to double stitching the outside part and quadruple stitching the stress jointing inside part that ensure the quality, reliability, and durability of our product.

5. We control so strictly on the quality, each products should be kept inflated for 3 days before shipment.

6. Wormanship: We make reinforce strips at the bottom joint and each corner on the main base. The most important thing is our seams are done using thread that can withstand great force (17 kg) to avoid easily damage from tearing.
