#### Product details:

1,The material is 1.0mm pvc from Plato chemical the best and biggest material supplier in China.The zipper we use is YYK brand. Meantime,it is a airtight product sealed by hot air welding machine,our machine is imported from Japan whih has stable temperature to ensure the ball is very durable without oversealed or less sealed.Besides,all the products will be done under strict quality control,coz our production manager has been in this field since 1995 and have many experienced workers.So you can get the best quality balls, do not like those inferior balls with cheap material,cheap zipper and no reinforces.

2,We mainly have 5 styles for you to choose:transparent,transparent with colourful strips,single color,mix color water balls.

3,For this model ball you can choose TPU material, but TPU material only transparent without color. The size is can be customized according to your requirements such as 1.8m,2.5m etc. Beacse the ball is airtight ,don't play inside more than 10 mins.

4,If you buy more than 5 pcs,we will free offer a pump for you.Of course ,if you want 1 pc,it can be accepted by our company,but the unit price will be more expensive than buy 5 pcs and extra pay for air pump.If you have any question ,please feel free to contact with us.

#### Our advantages:

- 1, strong and nice welds.
- 2, no electricity required,safe and funny.
- 3, full colors are available.
