Descriptions:

1 Workmanship: It is a heat sealed product by hot air welding machine. Our hot air welding machine is imported from Japan which has stable temperature, so it won't be over sealed or miss sealed, definitely in top quality without leak. Besides, we will double reinforce all the water items based on the seal seams to make sure it has no loose.

2 Material: It is made from plato 0.8/1.0mm pvc/tpu. All the material we use is from PLATO CHEMICAL which is the best and biggest material supplier in China. The material has been certificated by CE, EN14960, SGS, EN71, ROHS .

3 Service life: Our water rollers can be used more than 3 years. In this market, some suppliers may offer you water rollers with cheap material or very thin material like 0.7 or even 0.6mm thickness. But here in King Inflatable, we promise you that we will use 0.8mm or 1.0mm PVC/PTU and the material is all from the best PLATO CHEMICAL in China, so the service life of our water rollers is much longer than others.

3 Relevant water toys: Swimming pools and water balls. Whether in summer or winter, nearly all the clients would not only just buy a water roller, but also buy a pool and some water balls together. If you want to start a small business, start with this.

4 payment: T/T ,Western Union. The payment terms will be 50% deposit +50% balance. You can send us the deposit first to commence order production. When the items are finished, we will take pictures to you for confirmation.
