Descriptions:

1 Workmanship: It is a seal product by hot air welding machine. Our hot air welding machine is imported from Japan which has stable temperature, so it won't be over sealed or miss sealed, definitely top quality with no leak. Besides, we will double reinforce all the water items based on the seal seams to make sure no loose.

2 Material: It is made of plato 0.8/1.0mm pvc/tpu. All the material we use is from PLATO CHEMICAL which is the best and biggest material supplier in China. The material has been certificated by CE, EN14960, SGS, EN71, ROHS.

3 Regular sizes: 2.4m*2.2m ,2.8m* 2.4m ,2.6*2.2m,2.4*2m,2.2*2m.

4 Maintenance: After using, you should keep it clean and dry. Then you can roll it up and pack it into a PVC bag. It should be stored at a dry and ventilated warehouse with normal temperature.

5 Accessories: One free pump and repair kits.

Advantages:

- 1 All the material is from PLATO CHEMICAL ,the best and biggest material supplier in China.
- 2 All the water items are sealed by advanced hot air welding machine imported from Japan which has stable temperature to ensure the goods not over sealed or miss sealed, so we can offer very good products to you.
- 3 Any logo ,color, design are available.
- 4 The material will be cut by machine not by hand, so we can offer a fast delivery to you.
- 5 Durable, soft playing feeling, repairable.
- 6 Easy assemble, move, put it away, set up for different occasions.
- 7 Once broken, it's easy to repair, get it fixed and to work again.
- 8 Come with pump, glue and spare material.
- 9 8000 workshop, advanced imported machine and best quality accessories.
- 10 Before shipping, all the items will be tested strictly to make sure it work well.

Packaging & Shipping:

1. For the finished product, we packed with strong PVC tarpaulin (same to the products). The PVC tarpaulin bag is durable enough to bear the impact during shipment. In order for you to find your products quickly, the PVC bags are printed with our company's logo.

Remark: You can choose to print your logo on the package too. What you need to do is to send us your picture. And then we will finish it as your request.

2. Blower or air pump are packed by PVC bag or carton which is suitable for shipment, also been marked outside, so that you can find them quickly and correctly. Different countries have 110V/220V voltage, and different plugs, it will be much appreciated if you can tell us what plug you want, or we will use the plug of your country.
