#### Workmanship:

- 1) Reinforcement. We make reinforcements at every weak points like welding seams, inside baffles,connerect.
- 2) Durable anchor ring. For anchor ring, we use 316 stainless steel material which last longer than other metal in water.
- 3) Durable parts. All our parts like handles, anchor rings are welded instead of glue, it's not easy to peel off.
- 4) Stable Connection System. Bouncia created originally eyelet connection system and anchor ring connection system which make the whole park very stable.

#### Advantages:

- 1, All the material is from PLATO CHEMICAL ,the best and biggest material supplier in China.
- 2, All the water items are sealed by advanced hot air welding machine imported from Japan which has stable temperature to ensure the goods not over sealed or miss sealed, so we can offer very good jobs to you.
- 3,Any logo ,color,design are available.
- 4,The material will be cut by machine not by hand, so we can offer a fast delivery to you.
- 5, durable, soft playing feeling, repairable.
- 6, easy assemble, move, put it away, in different occasions.
- 7, once broken, it's easy to repair, get it fixed and working again.
- 8, come with pump , glue and spare material.

#### Application:

Inflatable water roller can be widely used as summer water park , River, pool and water game parks, sun cold paradise amusement water park , for outdoor use , outdoor entertainment , backyard fun , festivals and carnivals , schools and daycares , churches and youth groups, corporate picnics and functions, grand openings and promotions, family use rental or resell business. and so on...
