Description :

1. Material -- 1.0mm transparent PVC and 0.6mm PVC Tarpaulin

Transparent PVC : Its fixed width is generally 1.2m , It has two regular thickness , 0.8mm and 1.0mm ;it can be waterproof and has a very good light transmission .

PVC Tarpaulin : Its fixed width is usually 2.1m , Its thickness has 0.4/0.45mm , 0.55mm , 0.6mm and 0.9mm , It can be waterproof , fire-retardant ,sound insulation , anti-rupture, but the light transmission is very poor

2. As the bubble ball must be constant blowing type , it needs to be inflated constantly by blower connecting electricity , so that people can stay a long time inside the tent ; the tunnel must be airtight type , it only need to be inflated one time , so that people can get into and out at any time , so this bubble tent needs a air pump and a blower

3. Workmanship : 1) mainly welded by high frequency machine, but the zipper door and the connecting between the mat and the bottom of bubble ball are double stitched by sewing machine ; 2) Installing some D rings at the roof and the bottom as an anchor to fixed it to the floor ; 3) reinforce welding at the joint part

4. For package , we pack it in a roll and put it into a PVC bag , airpump and blower are packed in the carton ; For shipping , If you only need buy one or two , we suggest shipping by express is the best choice , you can get it directly at your address , it takes about 5-7 days , if you need buy more , shipping by sea is very good .

5. For all the inflatable products (not including accessories) , Our warranty time is generally 1 year .Within one year , if there is any quality problem , our factory will take the full responsibility to get it re-work , If failed , we will make a new one for you . Actually , when it is broken , it is easy to get it repaired , you only need to use the spare material and glue

6. OEM is accepted , Different sizes, colors, logo can be customized according to your needs .

Applications:

The transparent bubble tent is very nice and great , most customers buy it as a exhibition, party, living or other events , for example you can show some products , hold a party and living if you put some furnitures inside the tent . As it is transparent , the light transmission is very good , it is very perfect in the evening .My friend , you are always welcome to inquire and visit our company website , If you have any need , pls feel free to contact us .

Advantages:

1. High quality and best after-sale service
2. Strong and durable material
3. Careful and best workmanship
4. Competitive price based on good quality
5. on-time delivery and safe shippment
6. OEM is accepted and online at any time
7. Pass CE , EN71 ,ROHS , EN14960
8. Very safe , no hurt to people
9. Easy assemble and fast inflating/deflating
10. With a very good light transmission ,very nice
