Description :

1. Workmanship : 1) It is noncontinuous / airtight type , heat sealed by high frequency machine ; 2) As it is double layers ,with many strong ropes connecting D rings on two sides to form a air layer ,about 4200 D rings ; 3)In order to make it stable and safe , we usually Install some D rings at the roof and the bottom of outside the tent as an anchor to fixed it to the floor , The inner also needs to install some D rings to hang LED lights ; 4) reinforce welding at the joint part

2. Transparent PVC material : Its fixed width is generally 1.2m , Its thickness is 0.8mm ; it can be waterproof and strong ,the light transmission is very good , suitable for outdoor party ,exhibition ,meeting or others , besides , you also can choose other colors , such as green , red , yellow ,purple ,blue etc .

3. This tent is noncontinuous / airtight type , It only need to be inflated one time by using 2 pc air pumps connecting electricity , then it can keep about 10 days ,you don't need to keep it with electricity

4. For package , we pack it in a roll and put it into a PVC bag ,2 pc air pumps are packed in the carton ; For shipping , If you only need buy one and want it urgently , shipping by express or air (only arrive at the airport) is the best choice , If you choose by express , you can get it directly at your address , it takes about 5-7 days ; If you choose by air , cheaper than by express , But you have to go to airport and pick up the goods . if you don't need it urgently and need more products, shipping by sea is best choice , DDP shipping , you also can get it at home , no any extra charges , but it takes about 30 days at least .

5. For all the inflatable products (not including accessories) , Our warranty time is generally 1 year .Within one year , if there is any quality problem , our factory will take the full responsibility to get it re-work , If failed , we will make a new one for you . Actually , when it is broken , it is easy to get it repaired , you only need to use the spare material and glue

6. OEM is accepted , Any sizes, colors, logo can be customized according to your needs .

7. All the material conform to Standard CE certificate ,EN 71 and EN14960 approval , ROHS , SGS

Applications:

This transparent tent is noncontinuous / airtight type , you don't need to make it inflated , only blow it up one time , then it can keep a long time , some customers buy it as a meeting , some as a party , some as a exhibition or other events . It is with a very good light transmission , you can install some LED lights inside the tent , When you open light in the evening , It looks very beautiful and nice . We believe you must like it very much . Any needs , Pls don't hesitate to contact us .

Advantages:

1. Cheap price based on good quality
2. Careful and best workmanship
3. High quality and best after-sale service
4. Strong and durable material
5. on-time delivery and safe shipment
6. OEM is accepted and welcome to inquire at any time
7. Approval CE , EN71 ,ROHS , EN14960
8. noncontinuous without electricity
9. Very safe , no hurt to people , plastic material not steel
10. Easy assemble , connecting air pump and valve
11. A good light transmission ,very beautiful
