## Product Description

### 8m Diameter Inflatable Party Tent Clear Dome Tent Noncontinuous Type

#### Description :

1. This tent is noncontinuous / airtight type , It only need to be inflated one time by using 2 pc air pumps connecting electricity , then it can keep about 10 days ,you don't need to keep it with electricity
2. Workmanship : 1) It is noncontinuous / airtight type , Welding hot air by high frequency machine ; 2) As it is double layers ,with many strong ropes connecting D rings on two sides to form a air layer ,about 4200 D rings ; 3)In order to make it stable and safe , we usually Install some D rings at the roof and the bottom of outside the tent as an anchor to fixed it to the floor , The inner also needs to install some D rings to hang LED lights ; 4) reinforce welding at the joint part
3. Transparent PVC material : Its fixed width is generally 1.2m , Its thickness is 0.8-1.0mm ; it can be waterproof and strong ,the light transmission is very good , suitable for outdoor party ,exhibition ,meeting or others , besides , you also can choose other colors , such as green , red , yellow ,purple ,blue etc .
4. For package , we pack it in a roll and put it into a PVC bag ,2 pc air pumps are packed in the carton ; For shipping , you can choose by express , by air or by sea accroding to your needs .
5. For all the inflatable products (not including accessories) , Our warranty time is generally 1 year .Within one year , if there is any quality problem , our factory will take the full responsibility to get it re-work , If failed , we will make a new one for you . Actually , when it is broken , it is easy to get it repaired , you only need to use the spare material and glue
6. OEM is accepted , Any sizes, colors, logo can be customized according to your needs .
7. All the material conform to Stardand CE certificate ,EN 71 and EN14960 approval , ROHS , SGS
