### Descriptions:

For inflatable football field,there are 3 kinds of material available:0.45mm pvc tarpaulin ,0.55mm pvc tarpaulin and 0.6mm pvc tarpaulin.0.45mm and 0.55mm for sewing football field ,which needs a blower working all the time to provide air,0.45mm is good for small football field and 0.55mm is suitable for big ones.While airtight football field is made of 0.6mm pvc tarpaulin,which is the most durable and it can last for a long time once inflated by a pump,but the price is more expensive than sewing types.

Except for best material from PLATO CHEMICAL,our workmanship is also very good.Everywhere double stitching and all the key areas will be get reinforced,like the key areas between bottom and edge,very easy to get broken,but we double cover it after the sewing,very durable.

All the items can be customized including the material,size,design,logo,printing and so on.If interested ,feel free to contact us your requests,we will offer you the best quality with a good price.

### Advantages:

- 1 All the material is from PLATO CHEMICAL ,the best and biggest material supplier in China.
- 2 All the items will be done by double stitching or sealed ,and all the key areas will be reinforced
- 3 Any the items can be customized,including material ,size ,logo ,printing ,design and so on
- 4 The material will be cut by machine not by hand,so we can offer you a fast delivery.
- 5 More than 10 years' production experience and many rich-experienced technical workers,so you can get best quality goods.
