Descriptions:

1. As for this movie screen , It is made of 0.45mm PVC Tarpaulin , You know , all our materials are purchased from best supplier , Plato factory , good quality and durable . PVC Tarpaulin contains 3 layers itself ,with double coated side with a strong net inside , It can be waterproof and fire-retardant , with CE,EN14960,SGS,EN71,ROHS certificates .
2. As for this movie screen , It is constant blowing type , you need to inflate it constantly by using blower connecting electricity . Another is airtight type , you only need to inflate it one time by using air pump connecting electricity . If you often use it for a long time , the airtight type is the best choice ; If you don't use it very often , the constant blowing type is also okay , it can be inflated and deflated very fast .
3. Workmanship :For the black part , a support frame , It is stitched through sewing machine ; For the white screen , we usually make some eyelets around it , then you fix it to the support frame by using ropes , as we can see from the pictures .
4. For Inflating , you only need connect the blower with the blower tube and turn on the blower , then it can be inflated within 2-3 minutes . For deflating , you only need to turn off the blower .
5. As for fixing the movie screen to the ground , we will install enough D shaped rings on the black pole , you can use some ropes to fix it , to make it enough steady .
6. As for shipping , If you only need one piece , shipping by express is the best choice , If you want more things , by sea is the best choice , it depends on your quantity . For package , we usually make a bag with PVC tarpaulin , then put the movie screen in the bag .
7. As for payment , we have TT , western union , moneygram and paypal , generally , we receive 50% deposit and we will arrange the production , when finished , we will take some photos for your confirmation , if it is okay , you can pay the balance and we will ship it out .
