Descriptions:

1 Material: It is made of 0.65/0.9mm thickness pvc coated tarpaulin. All the material we use is from PLATO CHEMICAL which is the best and biggest material supplier in China. PVC tarpaulin has 3 layers, 2 layers pvc with 1 layer strong net inside, waterproof, fire-retardant and high durability. The material has been certificated by CE, EN14960, SGS, EN71, ROHS.

2 Workmanship: It is a seal product manufactured by hot air welding machine. Our hot air welding machine is imported from Japan which has stable temperature, so it won't be over sealed or miss sealed, definitely finished products are in top quality without leakage. Besides, we will double reinforce all the water items based on the seal seams to make sure they have no loose.

3 Accessories: One free proper pump and repair kits.

4 Shipping: If you only need one piece, shipping it by express is the best choice. But most clients would like to buy several pieces at a time and ship them together by sea, in this way the shipping cost will be much cheaper for each one.

5 Customized: Any color, design and size can be customized. Just tell us your ideas and we will make them come true.

6 Payment: T/T, Western Union. The payment terms will be 50% deposit + 50% balance. You can send us the deposit first to commence order production. When the items are finished, we will take pictures to you for confirmation. If everything is confirmed, please pay the balance, we will arrange shipment after receipted balance.

Advantages:

- 1 All the material is from PLATO CHEMICAL, the best and biggest material supplier in China.
- 2 All the water items are sealed by advanced hot air welding machine imported from Japan which has stable temperature to ensure the goods not over sealed or miss sealed, so we can offer very good products to you.
- 3 Any logo, color, design are available.
- 4 The material will be cut by machine not by hand, so we can offer a fast delivery to you.
- 5 Durable, soft playing feeling, repairable.
- 6 Easy assemble, move, put it away, it is suitable for different occasions.
- 7 Once broken, it's easy to repair, get it fixed and to work again.
- 8 Come with pump, glue and spare material.
- 9 8000 workshop with advanced imported machine and best quality accessories.
- 10 Before shipping, all the items will be tested strictly to make sure it work well.

Workmanship:

- 1) Reinforcement. We make reinforcements at every weak points like welding seams, inside baffles, junctions and corners.
- 2) Durable anchor ring. For anchor ring, we use 316 stainless steel material which last longer than other metal in water.
- 3) Durable parts. All our parts like handles, anchor rings are welded instead of glue, it's not easy to peel off.
- 4) Stable Connection System. Our company created originally eyelet connection system and anchor ring connection system which make the whole park very stable.
