Descriptions:

1. As for single layer bubble tent , the transparent part is made of 0.8mm PVC , which has a very good light transmission and can be waterproof ; the white part is made of 0.6mm PVC Tarpaulin , which is waterproof , fire-retardant and UV resistant . These two kinds of materials have many colors , you can choose what you like . Don't worry , all our material are purchased from plato factory , very strong and durable , with CE , EN71 , EN14960 , Rohs certificates .

2. Workmanship : This bubble tent is made up of one big bubble ball and two tunnels , welded by high frequency machine strongly . The bubble ball is constant blowing type , it needs to be inflated constantly by blower connecting electricity , the two tunnels is airtight type , it only needs to be inflated one time by air pump connecting electricity .

3. order to make it fixed to the ground , we will install some D rings at the bottom , to let you use some ropes to fix it , make it enough stable .

4. In order to make it inflated , you can connect air pump with valve on the tunnel , to blow the tunnel up first as it is airtight type , then use blower to connect the blower tube on the bubble , to set it up and stay constant blowing as the bubble ball is constant blower type .
5. In order to shipp the goods better , If you only need one piece , by express is good choice , If you want more , by sea is also okay . The shipping way mainly depends on your demands .
6. In order to pack it , we will make a carry bag first , then roll the product up on a roll and put it away into the carry bag , it is very easy .
7. As for payment , we have TT , western union , moneygram and paypal , generally , we receive 50% deposit and we will arrange the production , when finished , we will take some photos for your confirmation , if it is okay , you can pay the balance and we will ship it out .
8. For all the inflatable products (not including accessories) , Our warranty time is generally 1 year .Within one year , if there is any quality problem , our factory will take the full responsibility to get it re-work , If failed , we will make a new one for you . Actually , when it is broken , it is easy to get it repaired , you only need to use the spare material and glue
