Descriptions:

1. Our factory always use real and best materials, PVC Tarpaulin , It is usually purchased from Plato factory , which has 3 layers ,with double coated side with a strong net inside , It can be waterproof and fire-retardant , with CE,EN14960,SGS,EN71,ROHS certificates , good quality and durable .You know , best material is very important for all the inflatable products , good quality and durable , use 3 years at least , 24 hours working all the time , it is not a problem .
2. For inflatable products , there are 2 types ,one is airtight type , you only need to inflate it once ;Another is constant blowing type , you need to inflate it constantly by using blower connecting electricity , It is very fast to be put up and taken down . For all the inflatable bouncy castles , they are constant blowing type , with a very good bounce , they needs to be inflated constantly .
3. The workmanship is very good , double stitching with fourfold stitching at the bottom stress point , double stitching inside and double stitching outside , to make sure that it is strong enough and can stand a very big stress . Besides , we also reinforce strips at the joints , so you don't need to worry about the safety at all , the bottom can bear the kids no matter how they play on the castle , thequality is very good and durable .
4. For the safety , we usually make safe flap inside the air tube , when the electricity is cut off and make the blower off suddenly , the flap will help to stop the air let out too quickly , so that the kids have enough time to leave the castle .
5. For inflating , you can connect the blower and the blower tube , then turn on the electricity power , the castle can be inflated ,about 2-3 minutes . For deflating , you only need to turn off the power , it can be deflated within 2-3 minutes . Besides , we also make a strong zipper at the bottom of the castle , you open the zipper , which can help you deflate it more quickly . Above the zipper , there is a zipper cover , which is help to disperse the zipper's stress .
6. In order to fix the castle to the ground , we will install enough D shaped rings at the top and bottom , you can use some strong ropes to fix it , to make it enough steady , besides , this castle is very heavy , it is impossible to blow it away .
7. For shipping , our cpmpany has specialized shipping company , safe and fast . Of course , if you have own agent / forwarder in China , pls tell us . If you only want one piece , shipping by express/air is the best choice ; If you want to buy many castles , shipping by sea is the best choice .
8. Before the production , our designers will make a 3D design picture for your confirmation , it will be produced according to your demands , with best workmanship .
9. If you have any needs about this castle, pls tell us the size , color , logo , we will offer a very competitive price based on good quality . You are always welcome to visit our company website and our factory . We hope we can build a long term cooperation relationship with you .

Application :

This is a very nice castle , witha climb , a slide , two holes and two basketball boxes, many customers like it , used for kids fun . You can buy it as a private use , you also can buy it as a business , selling or renting , it can be used for kids' birthday party .
