Advantages:

1. Completely assurance

Our structures work with good sewing technic, they are 100% strong. They require the constant use of an electric compressor, and therefore need to be connected to an electric socket or to a generator.

2. Easy of Use

Within 10 minutes to inflate our products with a CE/UL pump. This time is greatly reduced by the use of 1100W electric pump. It is of course possible to inflate them in the traditional way, by using a mains voltage pump.

3. Safety of use increased

Our structures do not have rigid element. This ensures the best security for present material assets and people.

4. Price is negotiated, much more reasonable and pretty competitive.

5. Double-stitched reinforced seams and jump surface, anchor and D-rings to keep stability and safety under use.

Why choice use:

Customers are the most important element to produce benefits for company, that is why King Inflatable established integrated service policy to satisfy customers' requirements with top quality and perfect sale supports.

Before sale 24 hours online to chat with customers, we will provide them real picture, factory vedio, design and customization service for Inflatable water slide.

FAQ:

1. How about the sales terms and warranties?

Our products have been exporting to more than 50countries and regions around the world, 95% up abroad. Most products come with a one-year to three-year guarantee.

2. Do we make custom designs?

Yes, just submit your detailed renderings, and we can create your custom products. Allow at least three weeks to receive your custom shape in time.

3. What is available for international customers?

We sells products worldwide.We can make the necessary adjustments required to meet your local power systems.Payments are accepted through T/T, Western Union and Paypal.

4. How do you clean the products?

To wash:

Detach the fabric from the fan/blower.

Spray soiled area with pre-wash remover.

Use non-chlorine bleach.

Set the cycle to gentle cycle on cold with minimal rinsing and one load larger than it actually is (i.e. small load should be set to medium load).
