1. 0.9mm PVC Tarpaulin :

Its thickness has 0.4mm , 0.45mm , 0.55mm , 0.6mm and 0.9mm , this set of water park is airtight system , we usually use 0.9mm in thickness , best quality .

PVC Tarpaulin itself contains 3 layers , double sides coated with a strong net inside , it is so strong that you can't tear it off .

2. 20x20m inflatable water park : It contains 18 pieces in total . We send you 4 air pumps for free .

3. System : This Inflatable Water Park is airtight system , it means that it only needs to be inflated one time with air pump connecting electricity .

4. Warranty : This inflatable water park will be guaranteed for 2 years , in this warranty period , If there are any quality problems , we would take full responsibility for getting it re-worked , if failed , we promise to make a new one for you .

5. All our products are OEM . Different model , size , color , logo can be customized .

Applications :

This set of water park can be placed in the sea, lake or pool and can hold about 60 people . Its size and color can be changed based on original design . Even you can design the model you like .

Advantages :

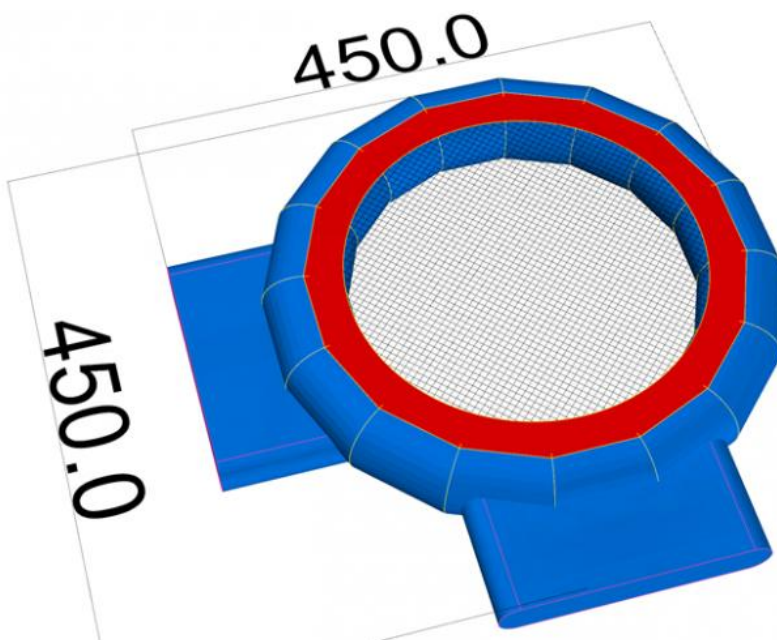

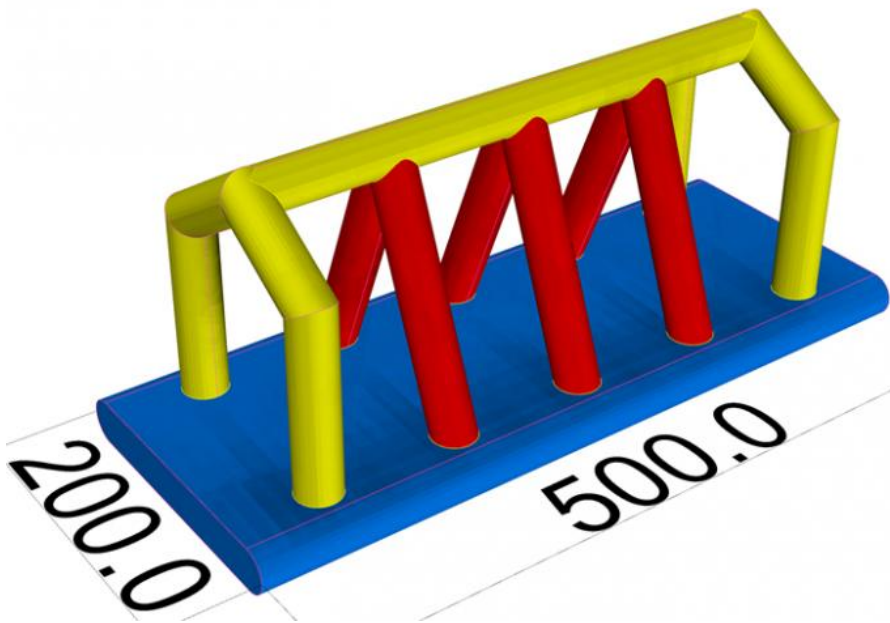

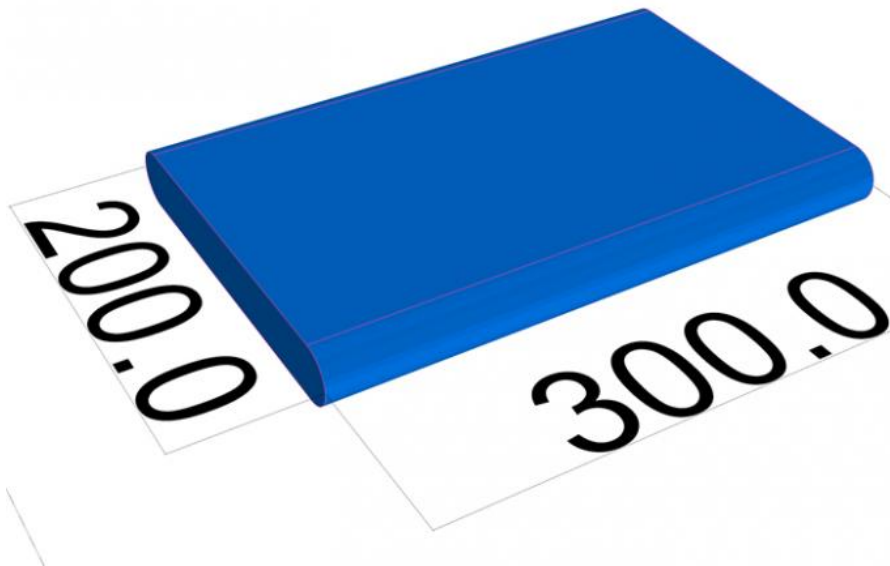

1. All our materials are purchased from Plato factory , Wubit special material -- Wubit 0.9mm PVC Tarpaulin , more expensive than general 0.9mm PVC Tarpaulin . We can send you some materials for your testing .

2. Welded strongly with high temperature machine and some experienced workers . Besides , reinforced a extra strip on all seams , stronger and more durable .

3. Installing reducing pressure valve . When your temperature is very high to some extent , this reducing pressure valve will make the product deflated automatically , in case of the product would blast because of the high temperature .

4. Strong D rings and handles , it is very difficult to tear them off .
