## Product Description

### 15m High Blue Outdoor Giant Inflatable Water Slide For Sale / Trippo Slide

#### Description:

Inflatable water slide uses the best material and best machines. Double stitch for the entire unit and enhance all stress points at the bottom with fourfold stitching. Both outside and inside are double stitched in order to maintain strong solidity. We make reinforce strips for the connecting part to make sure the durability and safety. The slip sheet of inflatable water sliding is moveable by Velcro and we made edgings to cover the sewing thread of velcro by hot-welded machine to avoid children get hurt when sliding down. King Inflatable can always offer you high-quality inflatable slideway with good service and on-time delivery.

The Outdoor giant inflatable water slide would make players' heart beat faster and scream when they slide down from the top of the slide and fall into the water.

This flat trippo slide is made up of 2 parts. The base consists of more than 10 large tubes. The unique design of the "I" shape ensures the stability of the base, allowing it to withstand the weight of three slides. We have a fan port on each side, and the two fans blow the base at the same time, which makes it fast and balanced. Please note that when deflation, also turn off both fans to maintain balance.

The three slides are derived from the ground in a perfect arc. They are like the claws of an octopus, firmly gripping the ground. The inflatable slide in the middle is to be fixed to the base with a fixing rope. The slides on both sides, in addition to the support of the base, in addition to its own inflatable base, is very strong.

#### Specifications :

Product Name	Trippo Inflatable water slide for Sale
Material	Plato 0.55mm PVC Tarpaulin
Size	71x19.3x15m or customized
Color	Blue and white or customized
System	Constant blower system
Blower	Need 10 sets

Certificates	EN71 SGS ROHS EN14960 CE UL

#### Details :

1. High-quality material - PVC Tarpaulin  
1000D\*1000D\*22\*20, high-density polyethylene, It contains 3 layers itself, very strong. All the materials have passed EN71 SGS ROHS EN14960 CE UL. Each inflatable will be equipped with a pair of strong zippers in order to be deflated faster and repacked easily after use. We also add a cover above each pair of zippers to help disperse the zippers' stress.
2. Double-layer material sewn on stress areas like the bottom of the bounce house's pillars, pop-ups, entrances, and high traffic floor seams to build the game stronger and safer. Every giant inflatable water slide will have enough big D ring safety anchors at least to make the units more steady and the slide will have more.
3. Inflation: Equipped with 10 blowers, 1500W, 60 HZ. As it is a constant blower system, you need to inflate it constantly with blower connecting electricity.
4. All the inflatable water slides can be customized, based on a different model, different size, different color, different logo and so on.
5. 2 years' warranty, if there are any questions, we will take full responsibility to get it re-worked.
6. Shipping: This trippo water slide is very heavy, about 15CBM, so by sea is the best choice.
7. Package: for trippo water slide, we use PVC bag, as it is so big that we will divide it into 6 parts to pack it. For blowers, we use carton bags . 10 carton bags for 10 blowers.
8. Maximum wind load: 45m ph
9. Maintenance: This trippo slide can be easily cleaned with a cloth, use a silicone-based solution to refurbish the material, rinse thoroughly and keep it dry before storing.

#### Advantages :

1. High-quality material and high-quality workmanship
2. Sizes, shapes, colors, logo can be customized
3. On-time delivery and fast shipping
4. Constant blower system for inflating
5. Safety and get it repaired easily when broken

- 6. Proper package and unpack it easily
- 7. Pass CE, Rohs, SGS, EN71, EN14960 certificates
