Advantages of our airtight inflatable tent:

1. We add reinforcement strips for all our airtight tents, so the items have good airtightness and more durable.
2. For parts like anchor rings and handles, we use the big high frequency welding machine to weld on the products instead of glue on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off.
3. We install high quality air relief valve made in on our tents, so the items can release air to a safety level automatically when it's getting hot in the noon.

How to place the order?

- 1 You send an inquiry to us, and we talk about the details
- 2 When confirming all information, we send an invoice to you
- 3 You pay 50% deposit before production, when finish, will take some details pictures for you to confirm
