Here below are the answer of original question

1 Is it fire retardant ?Did it can resist strong wind ?

Yes ,our material is fire retardant and water proof, and the big tent weight is heavy,not easy to blow down or blow away, meanwhile there are many D-ring on the bottom and top for you to fix.Next our design meet the gas flow mechanics.

2 The size is big /same,not suitable for me.could we can customize?

it is no problem. It can be customized according to your requirement such as size ,logo,color ,printing etc.Of course ,if you not like the picture please send a picture to us,then we make it according to your picture

3 How to set up

Spread out the tent, and find the blower mouth.connect blower and blower mouth,turn on it. Next need some people to puss the roof .then it will set up fast. of course ,If need ,we also can go abroad hep you to set up.
