Our material

Our material is Double layer PVC coated With Mesh Net, we Named it PVC Vinly . We also call it 3 layer PVC vinyl .To do sealed inflatable products, 0.55mm Thickness to 0.6mm Thickness is the most frequency USE material . We normally will use such thickness to do inflatable slide ,inflatable game ,inflatable bouncer.

Package

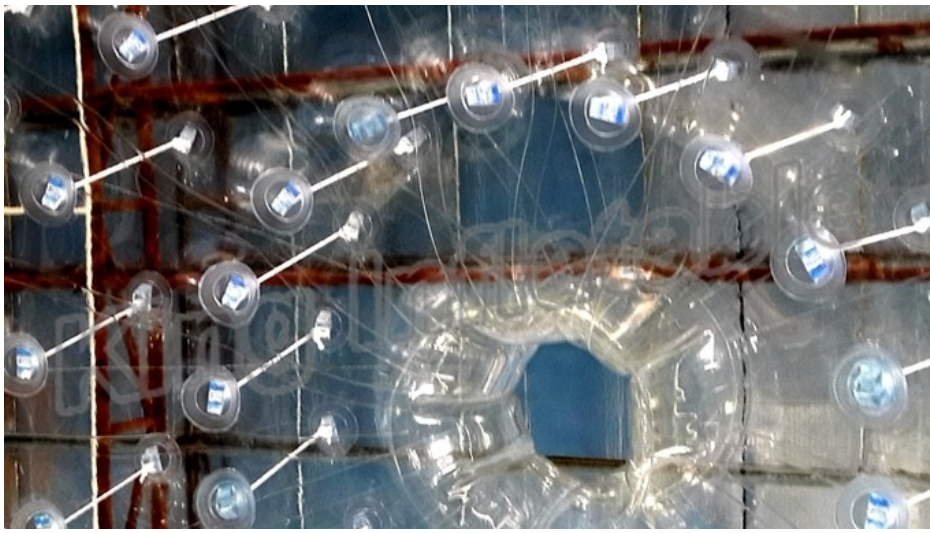

We pack inflatable games by carpet at first , then put the package in tarpaulin bag so that the packages will not be frazzled during delivery process let you find your goods quickly we will paste mark paper with your order number.

Deflation

We make enough air out zipper for each game according to the requirement of EN14960. So they can help you deflate the inflatable quickly. We do reinforcement for all the zipper joints, and above the zipper, there is a zipper cover by velcro material which is help to disperse the zipper's stress. We may also make a inside PVC materials to protect the zipper.
