Our advantage of inflatable water games:

1) We make reinforcements everywhere for the big water park,We use best 0.65mm or 0.9mm PVC tarpaulin for water games.the best material is very important for the games. All inflatable games of King inflatable are made by high durability fire-retardant PVC Tarpaulin, which has 3 layers, two coated side with a strong net inside. The flame retardant meet BS7837. Our material has improved by the SGS.

the connection between items of the park are durable eyelets, the structure can make the giant water park connect very stable.

2) We install high quality air relief valve from UK on all the items of this water park, so the items can release air to a safety level automatically when the air pressure getting higher.

3) We use thick and big stainless steel anchor ring with durable anchor pads at the bottom of the inflatables.

4) We spread air out to help deflation before roll the game, then put a band belt outside to tie it. We will use tarpaulin bag which is same material as the games to package the units. So the packages will not be frazzled during delivery process. For big units, we will make extra handle band outside of the packages. In order to let you find your goods quickly, we will paste a mark paper with your order number.

Customized

Our designers will work with you to create the customized inflatables that is right for you. You can order any of our standard inflatables branded to your company through colors and logos or let us help you with a complete new idea. Our art department will work with you from the initial concept design through bringing the inflatable to reality.
