#### Material and Workmanship

##### 1. Reliable and durable Material

Top quality material are always applied on our inflatables, and all of them are from one of the best material suppliers in China - Plato chemical; All of the materials we are applying meet EN71-2-3.

##### 2. High precision stitching machine and cultivated stitching workmanship

All of our stitching inflatables are stitched by high precision stitching machine with super excellent 9 in one waterproof nylon threads, and the length of every single stitching is around 4mm which is the top standard in inflatable field; most importantly, we always apply double stitching anywhere in the inflatables and quadruple stitching in positions sustaining much force and pressure from jumping.

##### 3. High precision heat welding machine and elaborated welding work

All of our airtight inflatables are made with high temperature multifunctional welding machine, which is necessary and efficient for massive airtight inflatables, such as inflatable water toys, zorb seires, swimming pools, airtight inflatable tents etc; Based on our perfect design, we can perfectly seal all the material pieces together into any reasonable inflatables, and heat weld all of our airtight inflatables with top quality standard with high efficiency.

#### Advantages

Not only do we focus on our products quality themselves, but also we pay attention to other details like packing these years; Based on our years experience, we always provide our customers the best packing like following so it can provide much convenience & save much time for customers later, and even it can avoid wrong delivery or damage from port careless or wrong operation.

#### How to order

1. Confirm all your demands, we make PI for your confirmation;
2. You pay 50% of total price as a deposit to get order started.
