Description:

- 1.This itmes usually put in pool or sea connecting with other equipemnt to play. It is very popular and Fun Sports at rencent years.
- 2.D-ring and anchor around the bottom with rope to tie weights under wanter to fix a positon. We use stainless D-ring and commercial level anchors, so our products are very good quality and durable.
- 3.The dimmension for this ltm is 10M x 4M,and the size, color,shape can be customized as your requiremnt.Also you can put your Logo or website on the products for advertising.
- 4.It belongs to airtight system, just need to be inflated one time by air pump connecting electricity, then can works more than 10 days.
- 5.Material: Waterproof,Anti-Tearing,Fir-resisitant,Strong and Durable.Our Materials are purchased from Plato company which is the best supplier in China.
- 6.We have Certificate:UL , CE , EN14960 , EN71 , SGS, So you don't need worry about customs declarance.
- 7.Payment terms:50% deposit before producing, and 50% balance before delivery.
- 8.OEM/ODM: Acceptable. Your Logo or website can be printed on products.
- 9.Accessories:Repair Kit (Fix material and Glue)
- 10.Price Term: EXW , FOB Guangzhou Or Shenzhen , CFR are optional.

Advantages:

- 1.All our products are reinforced strips, so the items have good airtightness and more durable.
- 2.We install high quality air relief valve on our water parks, so the items can release air to a safety level automatically when it's getting hot in the noon.
- 3.For the anchor rings and handles on our products, we use the big high frequency welding machine to weld instead of glue on by hand.So the parts and the main body are fused together so the quality is very stable and will not peel off.
4. Stable Connection System. King Inflatable created original eyelet connection and anchor ring connection system which make the whole park very stable.

5. We use good quality thick PVC material for inside drawstring which help form the inflatable shape. Thick PVC material will be more durable and can last for using time more long.

6. All edges will be hemmed inside with PVC tarpaulin to reduce air leak. So you don't need so many blowers to work at same time.
