Description:

- 1.Material: Plato 0.65mm PVC Tarpauline. 0.65mm is thick Material for Inflatable products to make sure they have good quality, and Our materials are all from Plato company which is the best PVC material in China. You know, Material is very important for good quality Inflatables.
- 2.Features:Waterproof, anti-tearing , Fir-resistant , strong and durable. So our products life time are more than 4 years.
- 3.Certificate: Our products are approved by UL,CE, EN14960,EN71,SGS , So it suitable for European and American market. And you don't need to worry about the customs declearance.
- 4.Packing:Inflatable product is packed by heavy duty PVC carry bag, Air blower is packed by exported standard carton. Good Package can protect goods from damage during delivery.
- 5.Payment terms: 50% deposit before production, and 50% balance before delivery.
- 6.OEM/ODM, we can print your logo or website on products for advertising.
- 7.MOQ:1PC, Better price will be offered for big quantity order.
- 8.Accessories: Repair Kit , repair material and Glue. But in order to ensure the transporation safety, we don't include the Glue if you choose shipping way by air or by express. You know, glue is prohibited by express and air way.
- 9.Origianl:Guangzhou, China
- 10.Price Term:EXW, FOB Guangzhou, FOB Shenzhen and CFR are optional.

Advantages:

- 1.All our products are reinforced strips, so the items have good airtightness and more durable.So our products' life spam are more than 4 years.
- 2.We install high quality air relief valve on our water parks, so the items can release air to a safety level automatically when it's getting hot in the noon. This will ensure products safety.
- 3.For the anchor rings and handles on our products, we use the big high frequency welding machine to weld instead of glue on by hand.So the parts and the main body are fused together so the quality is very stable and will not peel off.
4. Stable Connection System. King Inflatable created original eyelet connection and anchor ring connection system which make the whole park very stable.
5. We use good quality thick PVC material for inside drawstring which help form the inflatable shape. Thick PVC material will be more durable and can last for using time longer.

Application:

Inflatable water seesaw can be widely used as summer water park, River,pool and water game parks, sun cold paradise amusement water park , for outdoor use , outdoor entertainment , backyard fun , festivals and carnivals, schools and daycares, churches and youth groups, corporate picnics and functions, grand openings and promotions, family use rental or resell business and so on...
