Material	Commercial grade 0.65/0.9mm PVC tarpaulin(water proof & fire retardant)
Size	5mD Diameter by 0.8m High or customized
Color	Same as the picture or customized
Printing	Digital printing,Screen printing or Hand drawing
MOQ	1 Piece
OEM	Available(add color, number, logo and etc)
Certification	CE/EN71/EN14960/SGS
Accessory	Repair kits and Air pump
Technical	Heat sealed
Package	PVC tarpaulin bag for inflatables ,Carton for pump
Delivery way	by Express(Fedex,UPS ,DHL & TNT),by air ,by sea
Payment terms	T/T , Western Union with 50% deposit

Advantages of our water blob trampoline

1. We add reinforcement strips for welding seams, so the trampoline has good airtightness and more durable.
2. For parts like anchor rings and handles, we use the big high frequency welding machine to weld on the products instead of glue on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off.
3. For the parts that connect the trampoline net and main body, we do special treatment and it will not peel off.
4. We use auto-cutting machine to cut the material, the cutting lines are 100% straight and accuracy is high, most competitors use hand cutting.
5. For the material, we use 0.65/0.9mm thick(32oz) durable commercial grade PVC tarpaulin.
6. Airtight inflatable water games are made by high quality materials and advanced welding machine to ensure they are high quality products, just one time inflation will keep enough air pressure for a long time even under extremely low or high temperature. These inflatables are usually used as toy games for water parks, open seas, lakes, pools.

Workmanship:

- 1). All seams are heat-welded for maximum strength and doubled at key stress points.
- 2). Every side equipped with thick "O" anchor point, it's used to fix the water trampoline on the water bottom and remain steady.
- 3). Repair kits, Package bag will be provided.
- 4). Customer's logo can be printed.
- 5). Sample time: 3 days after received the sample fees.
- 6). Client's design, size will be available.
- 7). Custom Designs available for different shape, size, colour, logo printing, etc.
- 8). Material: durable PVC vinyl, abrasion resistant, lead free, weather-resistant, waterproof, fire-retardant, UV protective, 0.65mm or 0.9mm thickness.
- 9). Professional Machines for Cutting, Welding and Printing to ensure high quality.
- 10). Certificate& Standards: CE, UL, ASTM, EN14960, EN71, NFPA 701 No Lead, Fire Retardant.
- 11). Double welding throughout the unit with 3cm wide sealed.
- 12). Three layers stitching in key areas inside the base of the unit.

Our company:

Guangzhou King Inflatable Company was established in 2012, which is a company own factory specializes in the manufacturing of inflatable products. We have had sold our products to more than 70 countries all over the world, and established good cooperation with our clients.
