#### Our advantages:

##### 1. A leading inflatables supplier of 12 years

Our factory was established in 2012. All our workers are working in this field over 10 years who have rich experience in manufacturing inflatables, so we can supply you with more beautiful and exact products as you want.

##### 2. Owning the largest factory of inflatables in Guangzhou

Our factory covers a area of 10000 m2, which is the largest one in Guangzhou. We have many workers and our own design team. We can finish your goods in the time as you required.

##### 3. Professional design teams

Our designers can make 3D layout of your products for your confirmation before production. It can ensure every product is the exact one you want and the same as the finished one.

What's more, every year our designers will make many new designs for our clients to choose. Most of them are very attractive and hot selling.

##### 4. Advanced machines

We have auto-cutting machines, digital printing machines, coating machine, hot-welding machines...

##### 5. Best services

We all believe that Customer is the God. We always do our best to satisfy every client and solve all questions related inflatables. Keep no any complains.

#### Workmanship

1. We add reinforcement strips for welding seams, so the trampoline has good airtightness and more durable.

2. For parts like anchor rings and handles, we use the big high frequency welding machine to weld on the products instead of glue on by hand. The parts and the main body are fused together so the quality is very stable and will not peel off.

3. For the parts that connect the trampoline net and main body, we do special treatment and it will not peel off.

4. We use auto-cutting machine to cut the material, the cutting lines are 100% straight and accuracy is high, most competitors use hand cutting.

5. For the material, we use 0.9mm thick(32oz) durable commercial grade PVC tarpaulin.

6. Airtight inflatable water games are made by high quality materials and advanced welding machine to ensure high quality, just one time inflation will keep air well to last long even under extremely low or high temperature. These inflatables are usually used as toy games for water parks, open seas, lakes, pools.

#### Quality Control:

3cm welding width to make sure products can be welded perfectly.

Durable inside material to ensure good structure and top quality for each items.

Double reinforced the welding part both inside and outside.

10cm high quality velcro for connection part.

Enough strong anchoring points on the bottom of each items.
