#### Description:

Most slides are only designed for kids, but this one is also available for adults. No matter you, your friends or family, you can enjoy the happiness together. So find one day to join this game, it deserves your choice.

There are several optional materials for the bouncers and slides: fabric, 0.55mm, 0.6mm PVC tarpaulin and 0.9mm PVC tarpaulin. Fabric is mainly used for the mini bouncer, the most cheapest. 0.55mm PVC tarpaulin is most used for the dry castle and slide, suitable and durable, can be used for 5-10 years. The most cheapest and durable material is 0.9mm PVC tarpaulin widely used for water items.

For slide and castle inflatable toys, the weights are usually a little heavy, so shipping them by sea is a good choice. If you want to save your money, you can buy 2-3 pieces, then ship them together by sea, the total shipping cost will be very cheap for each.

#### Advantage:

##### 1). High Quality Material:

Commercial grade 0.55mm (1000D, 18 OZ) PVC tarpaulin has 3 layers, two PVC coated sides with a strong net fabric inside, which is fire retardant, water-proof, Anti-UV, and anti-ruptured.

##### 2). Best Sewing Machines:

Using the best sewing machines ordered to handle nylon thread we double stitch the entire unit with the best 18 ounce heavy duty Vinyl.

##### 3). Double Stitching everywhere:

We double stitching everywhere, with fourfold stitching at bottom stress point. Double stitching inside and double stitching outside to make sure the inflatables are strong enough.

##### 4). Reinforced Stripes at Joint

Our technicians will make reinforced stripes at the bottom joint and each corner. So when the kids bounce on the games, you do not need to worry about the safety at all. As the bottom can bear the kids no matter how they play on the games.

##### 5). 2 years warranty against workmanship and material failure.

##### 6). Quick delivery and fast transportation
