Single product name	Quantities	Size
swimming pool	1	30*20*1.3m diameter
water slide	1	16*8m

Details :

1. This water park is made of frame pool and water slide. There is material is special for frame pool, it is 0.9mm PVC Tarpauline, but its density is more thick 26*28. The colour is fixed for frame pool, inside colour is light blue, outside colour is dar blue. The water slide is inflatable products and need to be inflated by blower constantly.
2. Firstly you inflat the pool by air pump, secondly you inflate the water slide by blower, thirdly combine thsese two together is ok. When to inflate the game items, take water games items from packing bags and pave the mat or put it on grass to avoid scratching. By the way, please keep in mind, don't inflate full air for the products, fist cave in the inflatables 2-4cm will be better.
3. Because there is no need blower and air pump to frame pool, so only blower to water slide is ok.
4. We make a special design for D-ring, it is with PVC Tarpauline inside and outside, which is very strong, not easy to drop off. we will also reinforce each items, so that the stress uniformly.
5. There two different blower. CE blower for Europe: 220V-240V, 50HZ,UL blower for America, 110V, 60HZ
6. Payment term: 50% deposit by TT or Western Union, balance paid after confirmed finished photos before delivery.

Applications :

1. Widely welcomed by all over the world
2. Inflatable water pack can be seen in kindergarten, children center, parks and other amusement parks

Advantages :

King Inflatable designs products that ensure they are safe and usable for all swimmers:

- Via adequate labeling: Graphic symbols that are clear and visible
- Functional safety: girths, gaps and openings that will not cause entrapment
- No protruding parts: prevents the user from entanglement (for example when sliding)
- Handles with special design to avoid any entrapment hazards
- Secure locking valve. Special valves that can not be opened during use.
- Warning labels and pictograms that comply to EN 15649.
- Extra wide safety pad for added security.
- Stainless steel springs that won't rust.
- Commercial grade anchor attachment points.
- Reinforced welded seams
