Workmanship:

- 1.Our water park is airtight products,which need to be inflated by air pump only one time.
its material is 0.9mm PVC Tarpauline from Plato factory which is very strong and not easy to tear off.
- 2.We make reinforcement for each water park item, there is release valve in each item to ensure the safety.
- 3.The connection of each water park item is usually 2meter width. We will make the velcro, D-ring and Handle on the connection. We make a special design for velcro and D-ring, Velcro is with one sewing line to reinforce and D-ring is with PVC Tarpauline inside and outside, which is hard and not easy to fall down.
4. Our handle is also with PVC Tarpauline outside which is very hard and not easy to corroded by sea.
5. Custom Designs available for different shape, size, colour, logo printing, etc.
6. Professional Machines for Cutting, Welding and Printing to ensure high quality.
7. Double welding throughout the unit with 3cm wide sealed.
8. Our anchor ring connection system makes the whole water park no gaps and very stable.
9. Each product includes a Repair Kit (Material Patches and Glue).
10. Easy set up and take down
